

THE OWOSSO TIMES

EDMUND O. DEWEY, Editor.

OWOSSO, MICH., JULY 14, 1911.

Smith-Amos Wedding

The marriage of Miss Mabel, the daughter of Mr. and Mrs. Charles Amos of this city to Herman Smith, took place in Detroit Saturday. Mr. and Mrs. Smith returned to this city Saturday evening and will make their home here.

Mrs. Smith was formerly employed in the Owosso Casket factory and Mr. Smith is employed as shipping clerk at the same factory.

Their many friends extend congratulations and best wishes.

Serving 20 Days in Jail.

Corunna, July 10.—John Flinn, aged 29 and married, of Durand, was arrested by Deputy Milton Houghton Saturday evening for removing chattel mortgage property. He was at once arraigned before Justice Patchell at Durand and pleaded guilty. He was sentenced to serve 20 days in the county jail. Flinn is a laborer.

Corunna people will be grieved to hear of the death, Thursday, of Wm. J. Fowler, in Detroit. Mr. Fowler spent the greater part of his life in this city.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Electric Oil. Takes the sting out of cuts, burns, or bruises at once. Pain cannot stay where it is used.

Sheriff's Report.

Corunna, July 10.—Sheriff Ed. Herrick has completed his report to the secretary of state for the year ending June 30, 1911, and a perusal of the document furnishes a fund of information which is of interest to the people of the county. The whole number of arrests for the year were 104, and they for the following offenses: Larceny, 7; burglary, 6; assault and battery, 3; forgery, 1; drunk, 51; embezzlement 3; removing chattel mortgage property, 1; violation of local option law, 10; jumping board bill, 3; insanity, 1; desertion, 5; violation of truancy law, 1; disorderly, 14; attempted murder 1; rape 5; violation of game law 1; held for witness 1; adultery, 1; use of indecent language, 1; breach of contract, 2.

The nationality of the prisoners confined during the period is as follows: United States, 81; England, 7; Ireland, 4; Scotland, 1; Germany, 3; Sweden, 5; Blacks 2; mulattoes, 1.

The cost of maintaining the jail for the past year was \$1,752.80.

The cost of maintaining the jail, it will be observed, is very low, and serious crimes have been few. Of the number confined, 3 have sent to state prisons; 8 to Iowa, 6 to the Detroit house of correction. The number remaining in jail at the end of the year was 4, although at the same time last year, there was none in jail. It must be remembered that this includes six months of former Sheriff Watson's term.

Some people claim the expense to be enormous, let us compare it with Eaton county, which was \$3,292.40. In their jail they had confined during the 422 prisoners and of them 77 were on the charge of being drunk.

Bilious? Feel heavy after dinner? Tongue coated? Bitter taste? Constipation? Yellow? Liver needs waking up. Doan's Backache cure bilious attacks. 25 cents at any drug store.

FOREST FIRES RAGE

Canadians Are Heavy Sufferers and Town of Eganville Is Burned.

Ottawa, Ont., July 11.—Continued drought has rendered the forest country of the Ottawa valley as dry as tinder and numerous forest fires are reported.

The most serious loss thus far was at Eganville, where the conflagration swept the town, leaving two-thirds of it in ashes. The total loss so far from the fires is in the neighborhood of \$500,000.

HEALTH HINT FOR TODAY.

Deep Breathing For Drooping Shoulders.

Full and deep breathing will do more to straighten drooping shoulders than the wearing of braces, and if every one would take special pains to lift and hold the chest in its proper position round shoulders would disappear. Lifting the chest does not include any other exercise and is one of the simplest when once it is understood, but for some reason is one of the hardest ones to comprehend. It consists simply in the muscular movement of lifting up the chest, as though you were trying to lift it high enough to touch the chin. The arms and shoulders should be left in their natural position, and on no account should the shoulders be lifted at the same time you are lifting up the chest. Try the exercise. Stand perfectly easy and relaxed. Avoid tense muscles or any undue exertion, and see if you can accomplish the feat. You will readily understand that when the chest is no longer hollow, but is well up in its normal position, the shoulders cannot be rounded, but will naturally settle into their normal place.

Corunna.

The board has engaged the following teachers and a janitor: Supt. A. M. Walsworth; principal, Harriet C. Dickinson; asst. principal, Edith L. Bandfield; asst. principal, Lilly M. Wood. Intermediate department Edith Marshall and Edith Newell; 5th grade, Louise Peacock; 4th grade, Ruth Wood; 3rd grade, Edna Lindsey; 2nd grade, Constance Lowe; 1st grade, Mayme Fish, primary department, Sarah Lewis. Janitor, Claud Martin.

The total amount of receipts for the year was \$13,632.78 and the expenditures were such as to leave a balance on hand of \$229.95. After mentioning the receipts and disbursements estimated for next year he read the following recommendation: "The board, therefore, recommends that the sum of \$7,500 be spread on the tax rolls of the taxable property of the school district for the ensuing year for school purposes." Later this recommendation was adopted. Last year the tax was \$8,000.

Next in order was the election of two trustees to fill the vacancies caused by the expiration of the terms of Ernest Sidney and E. H. Bailey. These gentlemen were re-elected. No further business coming before the assemblage, the meeting was adjourned.

"Generally debilitated for years. Had sick headache, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

House Numbers.

Before the advent of the house number only business signs, coats of arms and house names marked the different buildings. Then, in London, for instance, one had to look for Mr. Jones, should he desire to call upon that man. In, say, "Whitechapel, not far from the Blue Boar." It is thought Berlin in 1795 was the first city to employ the numbering system. The German innovators did not put odd numbers on one side of their streets and even numbers on the other. They merely started from the Brandenburg gate and numbered straight ahead, taking no account of change of street. As they proceeded, therefore, the numbers grew higher, the height to which they attained being limited only by the supply of houses. The first house they numbered was No. 1, the last the number that betokened the total number of houses in the city.—St. Louis Republic.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

State Reward Road.

(Continued from page 1)

next paragraph, making outlets into the side ditches for water that may collect in the gravel bed during construction, and later, before the surface becomes hard and water-proof. Such trenching should be eight inches or more in width and slightly deeper than the gravel bed. They shall be placed at all low points in the grade and not farther than one hundred feet apart in retentive soils and filled with coarse gravel when the first layer of gravel is being applied.

GRAVEL BED AND SHOULDERS—After the road has been graded as above described the gravel bed shall be formed in the central part of the road grade as follows: Shoulders of firm earth, or other suitable material, shall be placed on each side of the gravel bed, not less than nine feet apart, or such greater distance as may be required to retain the width of gravel specified. The shoulders shall extend to the side ditches or gutters at the same grade and curvature as required for the finished road. Where the road grade is high the shoulders may be formed by moving earth from the center of the present road grade to the sides, or, if the grade is low, by crowning the present road grade by scraping earth from the sides toward the center, or if sufficient suitable material cannot be had along the roadway, it shall be brought from other places along the line of work.

ROLLING SUB-GRADE—After the shoulders and gravel bed have been formed as above described the whole roadway shall be rolled until no more compacting is possible. The hollows developed by this rolling shall be filled with suitable material under the direction of the officers in charge, and the roadway again rolled and left in a solid and firm condition, everywhere parallel to the finished roadway, the metal bed being 8 inches below the finished grade and having the same crown.

FIRST COURSE OF GRAVEL—After the road has been graded and rolled in the manner above described, a layer of gravel shall be spread on the prepared bed to such uniform thickness as to be not less than five inches deep after compacting six inches deep, loose measure. The gravel for this course shall consist of good, clean bank gravel not less than sixty per cent by weight, a larger per cent if possible, of which shall be pebbles that will be retained on a screen of one-eighth inch mesh and pass through a screen of two and one-half mesh. If clay gravel is used it should contain only clay enough to coat the pebbles, no free lumps. In no case should the clay exceed twenty per cent to the mass, for clay makes mud and adds no wearing qualities. The gravel course shall then be harrowed with a spike-tooth harrow and rolled until no

further compacting is possible. The rolling must be done only when the road has been well wetted by sprinkling or after rains. Any hollows that may develop in the gravel during the process of rolling shall be filled with the same kind of gravel and the rolling continued until the surface is uniformly smooth and hard and everywhere parallel two and three inches below the surface of the finished road. The crown can be preserved during construction by the occasional use of the grader or other suitable floating tools.

Ruts formed by hauling over the gravel shall be kept filled by using the harrow twice or more every day—preferably just before quitting time both noon and night.

SECOND COURSE OF GRAVEL—The gravel for the second course shall consist of good, clean bank gravel, sixty per cent by weight, a larger per cent if possible, of which shall be pebbles that will be retained on a screen of one-eighth inch mesh, and will pass through a screen of one and one-half inch mesh. Other requirements for gravel in this course are the same as specified for gravel in the first course. This gravel shall be spread on the road to such uniform thickness as to be not less than three inches deep after compacting, four inches loose measure, after which it shall be harrowed and rolled in the same manner as prescribed for the first course. Any depressions that may be formed during the rolling shall be filled with the same kind of gravel prescribed for the second course, and the road rolled until the surface is uniformly smooth and hard and everywhere conforms to the proposed grade and cross-section of the road.

MANNER OF ROLLING—Rolling shall be done only when the gravel has been thoroughly wetted by sprinkling or recent rains, and shall at all times begin at the sides, rolling lengthwise of the road, but gradually working toward the center. In the final rolling the whole surface of the roadway, including the shoulders, shall be rolled from ditch to ditch, and the whole road grade left in such perfect condition that water will flow without obstruction to the side ditches. Rolling may be done with a power roller, a heavy horse roller, a traction engine followed by a weighted field roller alone, if one of suitable strength to bear weighing to three or more tons can be obtained.

With any kind of a roller the spike-tooth harrow, preferably of the lever type, should be used as long as the teeth will penetrate the surface.

Approved March 1st, 1910.
TOWNSEND A. ELY,
State Highway Commissioner.

TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer in Owosso.

No woman can be healthy and well if the kidneys are sick. Poisons that pass on in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, etc. Uric poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has cured thousands of such cases. You will get better as the kidneys get better and health will return when the kidneys are well. Let an Owosso woman tell you about Doan's Kidney Pills.

Mrs. Ernest Hesse, 1028 W. Stewart St., Owosso, Mich., says: "I had dull pains across my loins and my back ached almost constantly. It was hard for me to stoop or lift and I was annoyed by a difficulty with the kidney secretions. Having heard a great deal about Doan's Kidney Pills, I resolved to give them a trial. Since taking this remedy the backache and pains have not bothered me and my kidneys have been normal. I can say that Doan's Kidney Pills are the best kidney medicine I have ever taken."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 2.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases.

Commissioners Notice.

In the matter of the estate of William A. Woodward deceased.
We the undersigned, having been appointed by the Hon. Matthew Bush, Judge of Probate in and for the County of Shiawassee, State of Michigan, commissioners to receive, examine and adjust all claims and demands of all persons against said estate, do hereby give notice, that we will meet at the office of Kilpatrick & Pierpont in the City of Owosso in said County, on Monday, the 21st day of August, A. D. 1911 and on Monday, the 23rd day of October, A. D. 1911 at ten o'clock in the forenoon of said days for the purpose of receiving and adjusting all claims against said estate and that four months from the 23rd day of June, A. D. 1911, are allowed to creditors to present their claims to said commissioners for adjustment and allowance.
Dated the 20th day of June A. D. 1911.
W. M. KILPATRICK,
E. O. DEWEY,
Commissioners.

CUT IT OUT!

Heroic treatment for a corn, which has no right to be on the human toe, is to open your handy old corn razor and cut it out.

There are bad habits and practices which people ought to cut out, though no razor is needed for the amputating process. For instance, it is a bad practice to get in the habit of buying things through Mail Order concerns when you can buy to better advantage—the mutual advantage of yourself and your neighbor—at the stores in your own town.

If you have acquired this habit take the Razor of Resolution, hone it on the hone of Mutual Interests, strop it on the strop of Town Improvement and—

CUT IT OUT!
